OBJECTIVE

Senior Microsoft Unified Communications & Modern Workplace Architect with 20+ years of experience seeking to lead enterprise-scale transformation initiatives across Microsoft 365, Teams, and UCaaS platforms. Focused on driving strategic architecture, executive engagement, and high-impact collaboration solutions for global organizations.

SUMMARY

Principal-level Microsoft Solutions Architect with over two decades of experience designing and delivering enterprise-scale Exchange, Teams, and Unified Communications architectures for global organizations supporting 50,000–160,000+ users, with a Proven leader in pre-sales solutioning, executive workshops, and proof-of-concept engagements, consistently driving multi-million-dollar transformation programs. Deep expertise in Microsoft 365, Teams Phone, hybrid cloud, and UCaaS modernization. Recognized for delivering geo-redundant, high-availability architectures, leading global migrations, and mentoring architecture teams while aligning technical strategy with business outcomes.
